Description

With age, skin loses its elasticity and firmness which leads to fine lines. This cream helps to reduce the appearance of fine lines and wrinkles. It also hydrates and moisturizes the skin. Skin is healthier, softer and more supple.

Active Ingredient

Palmitoyl Tripeptide-5

With age, skin loses its elasticity and firmness, leaving visible fine lines, wrinkles and sagging skin. It is an innovative anti-wrinkle approach that comprises the boosting of collagen production. TGF-beta is a natural collagen booster. It is to maintain the complete skin structural integrity, when aging, it will reduce the TGF-beta activity and form lines and wrinkles. Palmitoyl Tripeptide-5 is crafted by the inspiration of TGF-beta pathway which the peptide act similarly to the active site of TSP-1. It resembles the most active part of TSP-1 that results in the release of active TGF-beta. Thus, stimulates collagen synthesis.

Simmondsia Chinensis Seed Oil (Jojoba Oil)

Jojoba oil is very similar in composition to the human natural skin oils. It is an excellent moisturizer. It restores dry, dehydrated and mature skin. It is excellent for dry skin and has antioxidant properties.

*In dermatological tests done using Jojoba Oil, it was shown that it increases the skin's suppleness by 45%.

Acetyl Hexapeptide-8

Acetyl Hexapeptide-8 relaxes facial tension leading to the reduction in facial lines and wrinkles with regular use.

*14 women tested a cream containing a 5% of this active ingredient. The depth of the wrinkle decreased an average of 17%, with maximum values of 32%.

Tocopheryl Acetate

Vitamin E is a powerful antioxidant.

Panthenol (Skin Care)

Panthenol or Provitamin B5 acts as good moisturizer. It can improve skin hydration. Reinforces the skin barrier by reducing transepidermal water loss (TEWL). It helps to soothe irritated skin reducing itching, redness and inflammation. Besides that it promotes wound healing by stimulating epithelization. It helps with cell stemness preservation for a healthy skin. It also promotes skin regeneration and epidermal rejuvenation.
